

2019 AMERICOT REPLANT PROGRAM

All Seed Drop Zones

Any field planted with a qualifying NexGen® brand cotton seed variety that has an insufficient stand and is replanted with a qualifying NexGen® brand variety in the same season is eligible to receive a reimbursement of 75% of the grower invoice price up to suggested retail price of the replanted cotton seed.

Program Conditions:

- **AM UA48 does not qualify for the Replant Program.**
- The NexGen® brand cotton seed must have been purchased and consumed during the 2019 season. Seed purchased in previous years is not eligible.
- This program is only offered for the first replanting of the season and does not cover multiple replant situations.
- Seed qualifying for refund under the Americot Replant Program is ineligible for Americot's Crop Loss and Drought Programs.
- Growers must use sound farm management practices, and make every attempt to establish a stand and produce a crop.
- Growers seeking a Replant Refund should contact their Dealer before tilling or replanting any field associated with a Replant Refund request.
- **On-site verification and documentation by Dealer or an Americot sales representative must be completed prior to replanting in order to be eligible for reimbursement.**
- Replant seed quantity may not exceed quantity used to plant the failed or lost stand.
- Claim must be submitted to Americot no later than **July 15, 2019**. Program will be discontinued thereafter.
- Americot makes no warranty or guarantee regarding availability of specific varieties for replanting purposes. If the original planted variety is not available, another NexGen® brand cotton seed variety must be substituted for replanting purposes in order for the Grower to be eligible to receive a Replant Refund on the replanted acres.

Premium Seed Treatments:

- Syngenta Seed Treatments will receive 100% reimbursement if the original seed was treated with an equal Syngenta Seed Treatment.
- Syngenta reserves the right to visit the field to validate replant claims.
- Official Syngenta Replant Guidelines will need to be followed on replants and can be made available upon request.
- Americot CottolyST™ Seed Treatments (CottolyST Premier, CottolyST Enhanced, and CottolyST IMI) will receive 100% reimbursement if original seed was treated with an equal Americot CottolyST Seed Treatment.
- Americot will not be responsible for refunding any non-factory treatments.

Claim Process:

- Grower contacts Dealer about claim.
- Dealer or Americot sales representative verifies Grower's claim.
- Contingent upon approval, Dealer completes Replant Claim Form (to be found at www.americot.com) and emails (claims@americot.com) to Americot along with proof of purchase.
- Replant Refund will not be issued until the sales have been reported to Americot following the Reporting Guidelines.
- Refund for seed will be issued via check made out to Dealer and Grower and mailed to the Dealer. If the Grower has an outstanding balance under the Americot Finance Program, in lieu of issuance of a refund check to Dealer, Grower's outstanding balance will be reduced by the refund amount.
- Dealer must have a valid, signed Americot Dealer Agreement and the Grower must have a current Technology/Stewardship Agreement.
